Sadly it's time to be reminded about bush fire smoke hazards. Smoke causes a range of problems: shortness of breath, cough, worsening asthma & lung symptoms, irritated eyes, nose & throat. To avoid exacerbating health conditions during smoke pollution: \*stay indoors; keep doors and windows closed \*set air conditioner to recirculate air\* avoid strenuous outdoor activities, and wear an N95 mask if outdoors. If you are concerned contact Health Direct for quality health information: 1800 022 222.
