Napoleon Perdis Eye-Conic Eye Shades

Indulge in coveted eye looks with this curated palette of 12 timeless shades from our best-selling Colour Disc Eyeshadow. Known for its rich pigment and velvet-smooth texture, the long wearing colour-rich formula layers and blends effortlessly. Take your pick from matte or shimmer for timeless looks, no matter your mood or occasion. Paraben, gluten and nut free.

Pro Tip: Use a firm brush to apply and build intensity of colour or blend harsh edges with a soft fluffy brush. For longer lasting wear, try using your concealer as an eyeshadow base.

Welcome to Spring!

With the weather warming up, now is a timely reminder to check the expiry dates on our sunscreen at home and replenish if needed.

Australia has one of the highest rates of skin cancer in the world, and we know prevention is key to reducing the risk. So this season, slip on protective clothing, slop on sunscreen, slap on a hat, seek shade and slide on those sunglasses!

Specials in our current catalogue are available from 12th September. Purchase any item from the catalogue and enter online to WIN a Trip for 2 to Hawaii valued at up to \$7671.00

Healthy regards, Brendon, Emma & Justine

DONATIONS in August

We were pleased to donate to the following organizations last month:

- Dramamatics
- Tingha Tigers

Thank you for supporting our 100% **locally owned** and operated Pharmacy!

30ml \$49.00 & 100ml \$69.00

Diabetes

Diabetes: what is it? Diabetes mellitus a metabolic condition characterised by high blood glucose levels which may arise from either the body's inability to produce insulin or its inability to respond to insulin.

Insulin is a hormone that regulates blood glucose levels by allowing the body's cells to absorb and use glucose for energy. If high blood glucose levels are not treated it can become severe and cause serious health problems.

Diabetes impacts every part of the body

- Doubles a person's risk of dementia
 - Increases the risk of stroke by 1.5 times
 - Almost 50% of people experience a mental health challenge every year
 - Two thirds of Australians with Type 2 diabetes report some form of cardiovascular disease
 - Diabetes is the leading cause of preventable amputation
 - Twelve times higher risk of developing end-stage kidney disease
 - Leading cause of preventable blindness in working age Australians
- Campbell & Freebairn are an agent for NDSS and can assist you with all your diabetic supplies and questions.
